RESUBMITTING PLANS FOR REVIEW

Before resubmitting plans for review, carefully check the plans to be certain all plan review comments have been addressed, and the submittal package is complete and accurate. Incomplete or incorrect information will result in plans being returned, and will cause delay. After plans have been submitted, they cannot be amended during the review process.

ADDRESSING REVIEW COMMENTS

Corrections must be made on full size sheets. Attachments on 8.5"x11" sheets are not accepted. Amend plans using one of the following methods:

- Corrections may be done in hand, using either blue or black ink, and dated and initialied. If the plans are stamped, this must be done by the stamping design professional of record, licensed in the state of Colorado.
- Entire sheets may be replaced. Each new sheet must stamped and signed when applicable. Insert the revised sheets into the plan and remove the old sheets. Provide the old sheets upon resubmittal for reference.

RESUBMITTING THE PLANS

The plan label, and the review log, will indicate the method of resubmittal required.

- If "walk ok" is noted, the plans may be brought in any time during normal walk-thru hours. Walk-thru reviews are offered on a first come, first served basis, Monday through Friday, at the following times:
  
  9:00 am—11:45 am and 1:00 pm—3:45 pm

- If "no walk" is noted, resubmit the plans at the permit counter. Resubmittals are also reviewed in the order they are received. However, resubmittals are reviewed with priority over new submittals.

TRACKING THE STATUS OF PLANS

The progress of plans can be tracked on the website at www.pprbd.org by the address or assigned plan number indicated on the plan label.

- To check by address: Select PLAN REVIEW, then SEARCH PLANS BY ADDRESS
- To check by plan number: Select PLAN REVIEW, then SEARCH PLANS BY PLAN NUMBER

It’s important for you to check the status of your plans to prevent delays in your project. PPRBD has the ability to add up to 3 email addresses for automatic email notifications of plan log entries. These are automatic, no reply, notification emails, and this must be requested by the applicant. Otherwise, PPRBD does not notify applicants regarding plan status. When the plans are located in the “Finished Bin”, they must be picked up. PPRBD does not ship plans back to applicants.
