SECTION D - SURVEYOR, ENGINEER, OR ARCHITECT CERTIFICATION (CONTINUED)

Copy both sides of this Elevation Certificate for (1) community official, (2) insurance agent/company, and (3) building owner.

Comments: It appears the entire structure is not located within the 100 year floodplain depending on how the floodplain line is scaled and drawn. I have included Zone AE information since a small portion of an exterior wall may fall on the floodline. Concrete walls surround the basement window openings, which extend below the basement window sills. The window sill elevation is 5630.1. The elevation for the top of these concrete walls is 6313.1. Also, the basement includes a mechanical room which stores a sump pump and furnace.
