05/23/2018

To: who it may concern:

An inspection of the footing and pads at above referenced address was made on 05/23/2018. All of the forms were clean of any loose material and were of correct dimensions. The reinforcing steel was tied and ready to be installed.

If there are any questions, please contact me.

Sincerely Yours;

  
Larry Matejcek, P.E.
