Re: Interior Remodel – Permit # L49016
1711 N Murray Blvd
Colorado Springs, Colorado 80917
Test & Balance Report Midwest Colorado Springs Inc

To whom it may concern:

We have inspected the Test & Balance report from Midwest / Colorado Springs Inc and determined it is sufficient for our design. The differences between the T&B report and our design will not negatively affect the conditions of the interior space. Our scope of work was minimal and the majority of the existing HVAC design was left as-is.

If you have any additional questions or comments, feel free to contact me.

Sincerely,

Michael Royal McShea, Jr.

Professional Engineer
