

ELECTRIC SERVICES SUBMITTAL QUESTIONNAIRE

Each item below must be checked (meaning agreed to), or the process will not continue:

- I understand that electronic plan review and permitting for services is available for single address services only.
- I understand that electronic plan review and permitting is available only for commercial services of 600 amps or less.
- I understand that it must be specified on the one-line diagram if the service is free standing or on a structure.
- I understand that if the service is on a structure (not free standing) the location and size (in amps) of all disconnects serving the structure must be shown on the site plan.
- I understand the service must be identified as new or upgrade on the one line diagram.
- I understand the requirements for the one-line diagram are available at the PPRBD website:
